## Quality is what our customers have come to expect from Blum

For more than 50 years Blum has been manufacturing quality products to create motion in kitchens. With every product we strive to create new possibilities to inspire your customers with function and design.

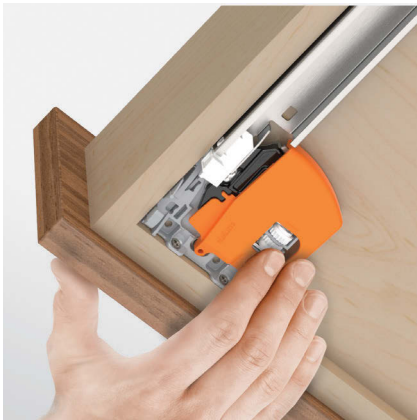

**Blum is committed to manufacturing in the U.S. for the U.S.**

Blum produces many of its products in our manufacturing, logistics and warehouse facility located in North Carolina. Manufacturing close to our customers allows Blum to respond to changes in our customers needs.

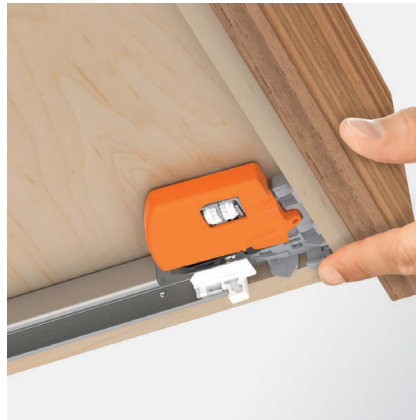

# New TANDEM plus BLUMOTION

## Appreciate the beauty of wood drawers

BLUMOTION soft closing, smooth running action and dependability for the lifetime of the cabinet have made TANDEM the premium concealed runner. Blum's new TANDEM plus BLUMOTION is the latest advancement in concealed runner technology. We have added true side-to-side adjustment and improved stability while maintaining our smooth running action and unmatched soft close. TANDEM plus BLUMOTION is the industry choice for dovetail drawers in high-end cabinetry, in both face frame and panel applications.

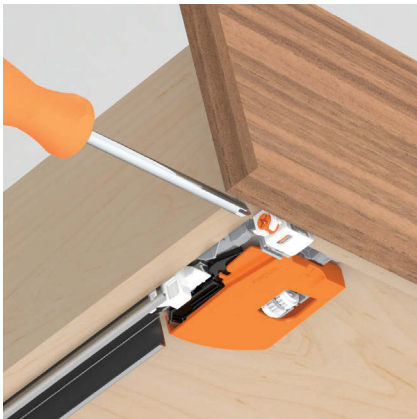

Side adjustment

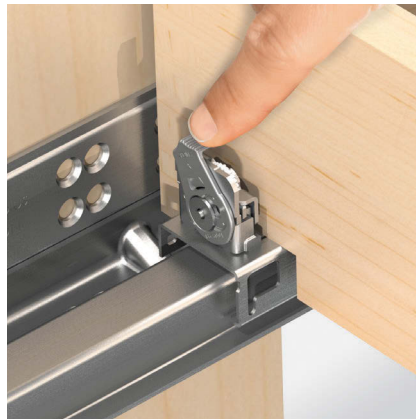

Height adjustment

Precise alignment of drawer fronts is now easier with four-dimensional adjustment – especially for inset applications.

Depth adjustment

Tilt adjustment

TANDEM plus BLUMOTION concealed runners are made in the USA at our North Carolina facility.

# TANDEMBOX

## Premium metal drawer system for kitchen cabinets

TANDEMBOX brings endless ways to inspire and stimulate creativity. Combining gray or stainless steel finishes with drawer side design elements from a wide spectrum of materials.

TANDEMBOX offers countless solutions for innovative drawer design.

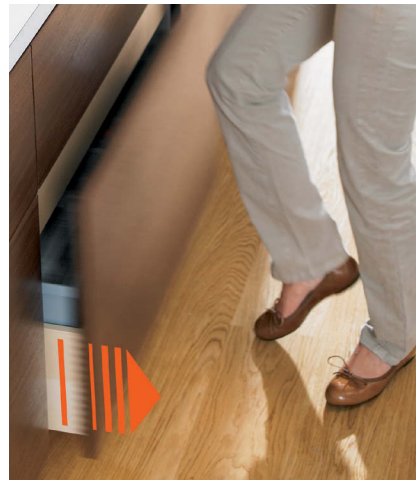

# SERVO-DRIVE for drawers

## Touch-to-open drawers with soft close

SERVO-DRIVE is an electrical opening assist for TANDEM plus BLUMOTION and TANDEMBOX drawers. By combining this touch-to-open feature with Blum's smooth running action and BLUMOTION soft closing, we have taken perfecting motion to a new level.

Drawers and doors open automatically with just a touch of the front or with a light pull of the handle.

# ORGA-LINE

## Endless storage possibilities

Most kitchen buyers want more storage space and organization in their kitchens. ORGA-LINE is Blum's adjustable organization system for optimizing storage space in drawers and can be customized to suit individual needs.

Plate holder

Spice tray

Foil/wrap dispenser

Knife holder

Together with DYNAMIC-SPACE, ORGA-LINE improves organization of space and workflow in the kitchen.

# TANDEM and TANDEMBOX waste/recycle set

## Easy opening with SERVO-DRIVE

The new premium waste/recycle drawer solutions feature BLUMOTION soft closing and, with SERVO-DRIVE, open automatically with just a touch of the drawer front. The sets come pre-assembled for 15", 18" and 21" wide cabinets and can be used in both face frame and panel applications.

TANDEM and TANDEMBOX waste/recycle sets with SERVO-DRIVE make the perfect solution for any kitchen.

## BLUMOTION for METABOX

METABOX has been the economical steel drawer for kitchens, bathrooms, offices, as well as medical and dental applications for many years. Now the soft closing action of BLUMOTION can be incorporated into the same practical solutions.

The BLUMOTION soft closing mechanism attaches to the cabinet for easy installation and adapts to METABOX's wide range of heights and lengths.

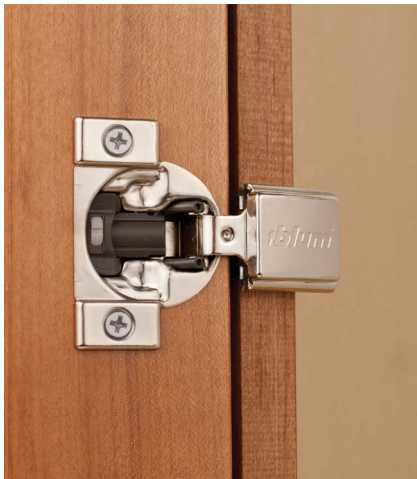

# COMPACT BLUMOTION

## Our softest close in our smallest hinge

Since the 1980s, Blum's COMPACT hinge has proven itself as a high quality solution for face frame cabinets. By integrating BLUMOTION soft closing into the hinge cup, Blum combines incredible function with quality and durability.

COMPACT BLUMOTION hinges are available for any face frame application and door style.

# CLIP top BLUMOTION

## BLUMOTION soft close – Now inside the hinge cup

Blum has a complete program of CLIP top BLUMOTION soft closing hinges. From standard, thick or aluminium doors to angled hinges; CLIP top BLUMOTION offers a solution for almost any cabinet.

Regardless of door size, CLIP top BLUMOTION's quiet and effortless closing remains constant.

# AVENTOS lift systems

## Defy gravity

With AVENTOS lift systems, cabinet doors open upwards providing better access to the cabinet interior. BLUMOTION soft closing is integrated into every AVENTOS mechanism for an amazingly quiet close every time. The kitchen user gains freedom of motion, by keeping the door up and out of the way.

AVENTOS HF – Bi-fold door

AVENTOS HS – Up and over door

The AVENTOS program opens up a whole new world of design possibilities for kitchen and office spaces.

AVENTOS HL – Lift up door

AVENTOS HK – Stay lift door

# SERVO-DRIVE for AVENTOS

## Touch-to-open with soft close

SERVO-DRIVE is an electrical opening assist system now available for AVENTOS lift systems. By combining this touch-to-open feature with BLUMOTION soft closing, we have taken perfecting motion to a new level.

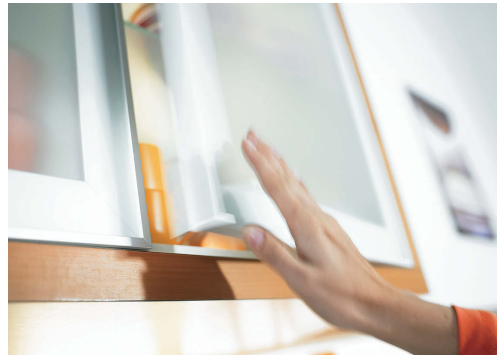

# TIP-ON

## Doors and drawers that open with a simple touch

TIP-ON is an excellent solution for opening handleless doors and drawers. The mechanical opening feature allows you to simply push on the door or drawer front to open it. It's that easy.

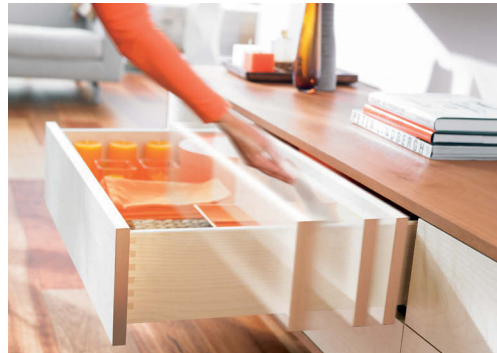

TIP-ON for AVENTOS HK

# Planning tools

## Simple planning and ordering

Blum offers many on-line tools to help you with your kitchen planning and ordering. Planning tools allow the selection of components based on your cabinet construction and size. Additional components can be selected as needed. Once complete, they provide an easy-to-follow order form.

Planning tools are easily accessible on our website at [blum.com/planning](https://blum.com/planning)

In addition to the planning tools, [blum.com](https://blum.com) has everything needed from installation videos, the most up to date product literature, DYNAMIC SPACE planning and information on how to purchase Blum products in your area.
